photo tips

Make sure your photo is seasonally appropriate for the contest period. Here are some suggestions for photos for each portion of the contest:

FEBRUARY/MARCH Snap a pic of your child making valentines or enjoying a valentine treat.

APRIL Get a spring-like shot of your child playing in a garden or planting flowers.

MAY/JUNE Take a photo of your child playing outdoors.

JULY Submit a photo of your child at Fourth of July activities or playing in a pool.

AUGUST/SEPTEMBER Capture your child's first day of school.

OCTOBER Get a shot of your child in her or his Halloween costume—but make sure you take the photo when there's plenty of light outdoors!

*Above photos are from 2007 & 2008 *Scrapbooks etc.* covers

To increase your chances of winning, make sure the photo shows just one person and focuses on the child's face. Also, the child should be smiling and relaxed (not too posed), and looking at the camera. Try to capture your child in a care-free, happy moment. Photos that are too staged usually don't show your child's personality.
